ABOUT

- Passionate and involved in computer science, ML and DL.
- I want to solve interesting problems in various fields of science and life, creating exciting projects.
- Commitment to the development in my professional field. Seeking to take the next career step.

WORK EXPERIENCE

Data Scientist

SBER | September 2021 - present

- Full cycle of ML development: communication with the customer, task definition, data mining, data preparation, model creation, deployment
- NLP tasks: classification, NER, relation extraction etc.
- CV tasks: classification, segmentation
- Time Series: forecasting, analysis
- Implementation models from papers

Data Analyst

SBER | May 2021 - September 2021

- Collection, purification, analysis of data.
- Visualization of the results obtained,
- Creation interactive dashboards and graphs.

Data Scientist

EPAM | January 2021 - August 2021

- NLP tasks: NER, classification
- GNN

SKILLS

- Python, SQL, R, Bash
- Math, Theory of Probability, Statistics, Optimization Methods
- Classic ML algorithms, Main modern Deep Net architectures
- PyTorch, CatBoost, LightGBM, Optuna, Scikit-learn, Pandas, NumPy, Pandas
- Docker + Compose, Git
- AWS, Terraform
- PySpark, Hadoop
- English B2

EDUCATION

Peter the Great St.Petersburg Polytechnic University 2020-2022

- Getting Master's Degree in artificial in artificial intelligence and machine learning

Peter the Great St.Petersburg Polytechnic University 2020-2022

- Bachelor's Degree in mechanical engineering technology

EPAM Training Center

- Development on python, Machine learning

Lots of open online courses

- Stepik, ODS, Coursera
